...DEVELOPING
TERMINOLOGY
TO DESCRIBE
THE IMPORTANT
JUDGMENTS
NURSES MAKE

AN INVITATION TO JOIN NANDA INTERNATIONAL

Words are powerful. They allow us to communicate ideas and experience to others so that they may share our understanding. Nursing diagnoses are an example of a powerful and precise terminology that highlights and renders visible the unique contribution of nursing to global health. Nursing diagnoses communicate the professional judgments that nurses make everyday to our patients, our colleagues, members of other disciplines, and the public. They are our words.

NANDA INTERNATIONAL'S COMMITMENT

NANDA International is a member driven, grassroots organization committed to the development of nursing diagnostic terminology. The desired outcome of the Association's work is to provide nurses at all levels and in all areas of practice with a standardized nursing terminology with which to:

- name client responses to actual or potential health problems, life processes, and wellness;
- document care for reimbursement of nursing services;
- contribute to the development of informatics and information standards, ensuring the inclusion of nursing terminology in electronic health care records; and
- facilitate study of the phenomena of concern to nurses for the purpose of improving patient care.

Nursing terminology is the key to defining the future of nursing practice and NANDA International is in the forefront. Join us and become a part of this exciting process!

BENEFITS OF NANDA INTERNATIONAL MEMBERSHIP

INVOLVEMENT OPPORTUNITIES

The participation of NANDA International members is critical to the growth and development of nursing terminology. Many opportunities exist for participation on committees, in the development, use and refinement of diagnoses, and in research. Opportunities also exist for international liaison work and networking with nursing leaders.

BENEFITS OF MEMBERSHIP

1. Subscription to The International Journal of Nursing Terminologies and Classification
2. Reduced fee at the NANDA-I conference.
3. Participation in debate and decisions about new and revised diagnoses.
4. State-of-the-art information on development of nursing terminology systems, which enable nurses to communicate with one another around the world
5. Reduced rate on in-house publications, such as Nursing Diagnoses: Definitions & Classification (See information below under Additional Materials Available.)
6. Resources for networking and research data
7. Access to the NANDA International web page - www.nanda.org - with links to minutes of Board meetings and all current decisions and initiatives
8. Access to N-Links - www.nlinks.org - an online opportunity to participate in nursing diagnosis research

JOIN TODAY!

NANDA INTERNATIONAL... A MEMBER DRIVEN ORGANIZATION

OUR VISION:

NANDA International will be a global force for the development and use of nursing's standardized terminology to improve the health care of all people.

OUR MISSION:

To facilitate the development, refinement, dissemination and use of standardized nursing diagnostic terminology.

- We provide the world's leading evidence-based nursing diagnoses for use in practice and to determine interventions and outcomes
- We fund research through the NANDA-I Foundation
- We are a supportive and energetic global network of nurses who are committed to improving the quality of nursing care through evidence-based practice

OUR HISTORY . . .

NANDA (North American Nursing Diagnosis Association), which was founded in 1982, grew out of the National Conference Group, a task force established at the First National Conference on the Classification of Nursing Diagnoses, held in St. Louis, Missouri, USA in 1973. This conference and the ensuing task force ignited interest in the concept of standardizing nursing terminology. In 2002 NANDA was re-launched as NANDA International to reflect increasing world-wide interest in the field of nursing terminology development.

NANDA International has approved more than 170 diagnoses for clinical use, testing and refinement. A dynamic, international process of diagnosis review and classification approves and updates terms and definitions for identified human responses. In collaboration with the Nursing Classification Centre at the University of Iowa, USA, NANDA International has developed a nursing practice taxonomy and class structure. This system allows for the placement of NANDA International diagnoses in an organizing framework that accommodates interventions and outcomes from the Nursing Interventions Classification (NIC) and the Nursing Outcomes Classification (NOC), thus creating a comprehensive language system capable of documenting nursing care in a standardized manner.

NANDA International has collaborative links with nursing terminology societies around the world such as JANDA, ACENDIO, AFEDI and AENTDE.

OUR PURPOSE . . .

Implementation of Nursing Diagnosis enhances every aspect of nursing practice, from garnering professional respect to assuring accurate documentation for reimbursement.

NANDA International exists to develop, refine and promote terminology that accurately reflects nurses' clinical judgments. This unique, evidence-based perspective includes social, psychological and spiritual dimensions of care.
